

ALTA 1997 NI/CO PRESSURE LEACHING & HYDROMETALLURGY FORUM

TABLE OF CONTENTS

Technical Development of the Bulong Laterite Treatment Project

By A Taylor, D C Cairns

Process Development & Plant Design for the Cawse Nickel Project

By P G Mason, D White, J V Groutsch, R S Mayze

Pacific Nickel's Redevelopment of Nonoc

By B J Bower

Technical Aspects of Ammonia Leaching of Ores & Concentrates

By M L Jansen

Development of Process Design Criteria for HPAL Nickel Laterite Projects

By N Hazen, E Chou

Cobalt Extraction Using Zeneca Development Reagent DS 6001

By Dr M A Cox, J R Lawson

Solid Phase Separations Technology for Nickel Purification

By R Bruening, N Izatt, F Traczyk, D Louie

Cobalt in Africa: New Developments

By S F Burks

Application of Bateman Pulse Columns for Ni/Co SX

By R L Movsowitz, R Kleinberger, Dr E M Buchalter

Ramu Nickel Project – Post Pre-Feasibility

By E Anderson

The Calliope Nickel Cobalt Project

By P J Matheson, G S M Becker, G A Lennard

Re-Opening of the Radio Hill Nickel Project, Western Australia Using Bacterial Leaching of Nickel Sulphide Concentrates

By A Taylor, H Fairley, R Winby

New Nickel Process Increasing Production in Outokumpu Harjavalta Metals Oy, Finland

By K Knuutila, S Hultholm, B Saxen, L Rosenback

Agitator Design for Nickel Acid Leach Autoclaves

By G Fraser, T Post

Nickel & Cobalt Intermediates – Markets & Distribution

By C de Guingand

Testwork Conducted by Mintek for the Bulong Nickel Project

By N Hayward, M J Dry, A G Pavlides, J Niewoudt, K C Lenthall, J Steyl, L J Bryson, S Burelli
