

ALTA 1998 NI/CO PRESSURE LEACHING & HYDROMETALLURGY FORUM

TABLE OF CONTENTS

Pilot Plant Experience on the Bacterial Leaching of Ni/Co Sulphide Concentrates at Bactech (Australia) Ltd

By J Fewings, T Wilathgamuwa

BioNIC® - An Economically Competitive Process for the Biological Extraction of Nickel

By A E Norton, J J Coetzee, S C C Barnett

CESL Process for Nickel/Cobalt Concentrates, Testing in an Integrated Pilot Plant

By D Jones

Activox® and the Yakabindie Process for Treatment of Nickel Sulfide Concentrates

By G D Johnson, H A Evans

Commissioning of the Base Metal Refinery at Hartley Platinum

By T N Holohan, G W G Montgomery, A J Lathwood

The Browns Cobalt/Lead/Copper/Nickel Project

By R Elvish

Engineering Aspects of a Bacterial Oxidation Circuit for Cobalt Recovery at Kasese, Uganda

By A P Briggs, M Millard

Cu/Co Tailings Treatment Project, Democratic Republic of Congo

By M J Dry, G Irio, D F Jacobs, P M Cole, A M Feather, K C Sole, J Engelbrecht, K C Matchett,

P J Cilliers, P T O'Kane, D B Dreisinger

The Murrin Murrin Laterites Project

By R Weizenbach (Not available at time of printing)

The Marlborough Laterites Project

By A Griffin

Weda Bay Laterite Project, Indonesia

By M G Baillie, G C Cock

Innovative Membrane Applications in Nickel-Cobalt Processing

By V Cinanni, P Macintosh

The Ultrasep: Demonstrated Ultra High Thickening Technology

By Z Smit

Filtration in Modern SX-EW Operations

By W A Greene

Extraction of Nickel from Ammoniacal Leach Solutions: Extractant and Solution

Chemistry Issues

By J M W Mackenzie, M J Virnig, B D Boley, G A Wolfe

Comparison of Some Aspects of the Performance of a Bateman Pulse Column and

Conventional Box-Type Mixer/Settlers

By M H Fox, S J Ralph, N P Sithebe, E M Buchalter, J J Riordan

Occupation Exposure Values and Process Plant Design

By J Davis

Implications of Geological and Mineralogical Aspects of Laterite Deposits for Metallurgical

Plant Design

By P A Burger

Pressure Acid Leaching of Nickeliferous Laterite Ores

By E Krause, B C Blakey, V G Papangelakis

Pilot Plant Testing of Nickel Laterites

By J H Kyle, I J Corrans

Ramu Nickel Process Piloting

By P Mason, M Hawker

Autoclave Design Aspects for Pressure Leaching

By R Clary (Not available at time of printing)

Acid Resistant Bricklining in Pressure Leaching Plants for the Mining Industry

By H Feldheiser

Thermal Design of Pressure Acid Leach Systems

By P Dickson

Issues in Sulphuric Acid Production and Cogeneration Energy for Pressure Leaching Plants

By M Jansen, A Taylor
