

TABLE OF CONTENTS

**New Projects**

**Pilot Plant Testwork and Design of the Ravensthorpe Benefication Plant**

By G Miller, Comet Resources Pty Ltd, Australia, S Norgard, Normet Pty Ltd, Australia

**Black Range Minerals Syerston Project – A Unique Nickel Laterite**

By G Motteram, Black Range Minerals NL, Australia

**Ni Laterites in Africa and the Pacific**

By D Russell, Argosy Minerals Inc, Australia

**The NiWest Project – An Experienced PAL Operators Perspective**

By J Ford, S Goertz, NiWest Limited, Australia

**Technology Developments**

**Development of a Cathode Mandrel for Production of Nickel and Cobalt Rounds**

By D Robinson, Dremco Inc., USA

**Developments in Cobalt and Nickel Electrowinning Technology**

By A G Pavlides, Bateman Engineering Ltd, Australia

**Cathode Boxes and Anode Bags (Electrode Containers) in Electrometallurgy**

By D Robinson, Dremco Inc., USA, F Day, Envirotech Molded Products, USA

**Ammoniacal Solvent Extraction of Nickel in Bateman Pulsed Columns at QNI Pty Ltd**

By D Parkes, QNI, Australia, B Arnall, AMMTEC, Australia, R Kleinberger, B Grinbaum, Bateman Projects, Israel

**Precipitation of Nickel Metal by Hydrogen Reduction – A New Perspective**

By B Willis, Kvaerner E & C, Australia, J Von Essen, Philadelphia Mixers, USA

**A Method for Comparing Alternate Technologies in Hydrometallurgical Solvent Extraction**

By R W Cusack, Koch Extraction Technologies, USA

**Pressure Leaching**

**Titanium Clad and Brick/Lead Lined Autoclave Construction**

By M Gobell, ASC Engineering Pty Ltd, Australia

**TiRu-26™ and -27™: Lower Cost, Corrosion-Resistant Titanium Alloys for Hydrometallurgical Process Equipment**

By R Schutz, R L Porter, RMI Titanium Company, USA

**Single-Step Pressure Leaching of Base and Precious Metals (Gold and PGM's) Using the Platsol Process**

By C J Ferron, C A Fleming, Lakefield Research Ltd, Canada, D B Dresinger, University of British Columbia, Canada, P T O'Kane, O'Kane Consultants Inc, Canada

**Agitation Experience & New Developments for Nickel Plants**

By D M Adams, Lightnin, USA, G M Fraser, E D Stevenson, Lightnin Mixers, Australia

**The Heating of Nickel Laterite Autoclave Feed Slurries**

By K Lamb, J Gulyas, AGRA Simons Limited, Canada

**Applications of Two-Phase Flashing Model in Slurry Flow**

By Quoc-Khanh Tran, D J DeBoer, Kaiser Engineers, Australia

**Indirect Heating, The Effects of Slurry Rheology and Cost Effective HPAL Slurry Heating**

By I Hunter, B Moll, SNC Lavalin, Australia

**An Investigation of Autoclave Scales Formed in Commercial Nickel Laterite Pressure Acid Leaching Operations**

By C Czerny, Oretest Pty Ltd, Australia, B Whittington, CSIRO, Division of Minerals, Australia

**Mixing of High Viscous Laterite Nickel Ores**

By R Klepper, Ekato Corporation, USA

**Nickel Outlook – 2000 – 2010**

By W G Bacon, A O Dalvi, M O Parker, Inco Limited, Canada

**Pilot Plant Operations**

**Autoclave Availability: Activox® the Advantages of Operating at Reduced Temperatures and Pressures**

By G D Johnson, H A Evans, J H Turner, Western Minerals Technology Pty Ltd, Australia

**Results from the Downstream Unit Operations of an Integrated Pilot-Plant Campaign Using the BioNic™ Process to Produce Nickel Metal Cathode at QNI's Yabula Refinery**

By V Nagel, D Jacobs, G Benetis, N de Jager, A Feather, Mintek, South Africa

**PAL Plant Operations**

**Cause Nickel Operations – Process Description and Production Ramp Up**

By R Grassi, D White, T Kindred, Centaur Nickel Pty Ltd, Australia

**Mine Grade Control at Bulong Nickel**

By D Oram, Bulong Operations Pty Ltd, Australia

**Bulong Nickel Operations – Post Commissioning**

By A Griffin, G Becker, Preston Resources Ltd, Australia

**Tailings Disposal**

**On-Land Tailing Storage vs Deep Sea Tailing Placement the Pros and Cons for Pressure Acid Leaching**

By S Jones, NSR Environment Consultants Pty Ltd, Australia

**Laterite Processes**

**Energy Consumption and Economic Trends in the Production of Nickel from Laterites – An Update**

By P T O’Kane, O’Kane Consultants Inc, Canada, L S Gormely, AGRA Simons Ltd, Canada

**The Recovery of Nickel from PAL Discharge Liquors**

By P Dickson, Kvaerner E & C, Australia

**Future Trends in PAL Plant Design for Ni/Co Laterites**

By A Taylor, M Jansen, International Project Development Services, Australia
