

TABLE OF CONTENTS

**Separation & Purification**

**Copper Cyanidation Chemistry and The Application of Ion Exchange Resins and Solvent Extractants in Copper-Gold Cyanide Recovery Systems**

By W Jay, Orettek, Australia

**Removal of Arsenic from Speiss Leach Liquor by Solvent Extraction**

By G Anderson, Macarthur River Mining, R Newell & K Quast, University of South Aust.

**Separation of Nickel from Calcium with Versatic 10 and Synergist CLX50**

By C Y Cheng, A J Parker CRC for Hydrometallurgy/CSIRO Minerals, Australia

**Extraction and Recovery of Cobalt & Copper from Various Hydrometallurgical Feed Streams Using Molecular Recognition Technology (MRT) and Bismuth Control at the Port Kembla Refinery Using MRT**

By S Izatt, R Bruening, N Izatt, J Dale, IBC, USA, P J Cilliers, Molecular Recognition Technology, RSA, D Winnig, J Moore, M Watts, Port Kembla Copper, Australia

**Impurity Removal by Fixed Bed Ion Exchange from Cobalt Electrolyte Derived from the Kakanda Tailings Dump**

By J Wyethe, M Kotze, Mintek, South Africa

**Extractants & Resins**

**Silica-Polyamine Composites for "Green Ore Processing"**

By R Fischer, E Rosenber, Purity Systems, C Anderson, CAMP, USA

**Cognis AuRiX® 100 Resin for Gold Extraction – Engineering Cost Study and Pilot Plant Investigations**

By G Fisher, R Lewis, M Virnig, Cognis, USA, M Mackenzie, Cognis Australia & M Davis, Lycopodium

**Contactors & Columns**

**Application of Bateman Pulsed Columns from Demonstration Plant to Industrial Plant**

By R Kleinberger, Bateman, Israel and A Miller, Haifa Chemicals South

**Ion Exchange Column Design for Separation of Nickel Traces from Cobalt Electrolyte**

By A Pavlides, Bateman, Australia & J Wyethe, Mintek, South Africa

**Phase Disengagement and Crud**

**Possible Application of Offshore Oil & Gas Phase Separation Technology to Hydromet SX**

By J Sullivan, Sustainable Tech. Australia & D Stanbridge, CDS Engineering, Netherlands

**Dynamics of Mixer-Settler Operation Under Quasi Steady State Conditions**

By G Miller, Egis, Australia

**Tools for Diagnosis of Crud and Organic Degradation Problems in SX Circuits**

By K Barnard, C Hughes, CSIRO, Australia

**Impurity Transfer in Copper Solvent Extraction Plants- Understanding and Managing the Problem**

By K Dudley, Girilambone, Australia, D Readett, Straits, Australia

**Plant Operation & New Projects**

**Solvent Extraction of Rare Earths in the Mt Weld Project**

By K Soldenhoff, ANSTO & D Kingsnorth & M Vaisey, Lynas/Ashton Mining, Australia

**A Case Study of Three Different Solvent Extraction Circuits Used for the Separation of Cobalt from Nickel**

By A Lathwood, J Riordan, Bateman, South Africa & A Pavlides, Bateman Australia

**An Efficient Approach to Cobalt, Copper & Nickel Recovery from Raffinates, Evaporation Ponds & Other Low Grade Streams**

By P A Treasure, Electrometals, Australia

**The Industrial Hydrometallurgical Production of Copper from Concentrates with Nitrogen Species Catalyzed Pressure Leaching, Solvent Extraction and Electrowinning**

By C Anderson, Centre for Advanced Mineral and Metallurgical Processing, USA
