

# CONTENTS

## **The Impact of Process Selection on Mine Design - Risks and Reserves**

*Todd Harvey - GeoBiotics LLC – USA*

### ***Electrolytic Refining***

#### **A New MRT Process for Bismuth Removal and Recovery**

*Daniel Kim and Shijie Wang - Kennecott Utah Copper Corporation; Steven R. Izatt, Neil E. Izatt, John B. Dale, and Ronald L. Bruening - IBC Advanced Technologies Inc. - USA*

#### **Wireless Temperature And Voltage Monitoring Of Electrolytic Cells**

*Ari Rantala – Outokumpu Technology – Finland; Eugene You - Kennecott Utah Copper Corp; David George - Rio Tinto pic – USA*

### ***Equipment & Materials of Construction***

#### **Thermoplastic Lining Systems**

*Iain Bennett - Steuler Industrial Corrosion Protection Pty Ltd - Australia*

#### **Titanium Clad Ignition Studies in Simulated Pressure Oxidation Leaching Environments**

*John Banker - DMC Clad Metal; Nathan Weyandt - Southwest Research Institute; James McMaster - MC Consulting - USA*

### ***Solvent Extraction Reagents***

#### **New Reagent Developments in Copper SX**

*Matthew Soderstrom – Cytec - USA*

#### **The Use of Additives to Increase the Conductivity of SX Organics**

*Matthew Giles – Associated Octel Ltd – UK; David White A.S. Harrison & CO. Pty Ltd - Australia*

#### **Design Of Mixer-Settlers To Maximise Performance**

*Graeme Miller – Miller Metallurgical Services – Australia*

#### **New Developments In The Boleo Copper-Cobalt-Zinc-Manganese Project**

*David Dreisinger, William Murray and Eric Norton – Baja Mining Corp. – Canada; Ken Baxter, Michael Holmes and Eric Craig – Bateman Engineering – Australia; Ron Molnar – SGS Lakefield - Canada*

#### **Clay Treatment for Copper Solvent Extraction Circuits**

*Kym Dudley and Phil Crane – Cognis Australia Pty Ltd – Australia; Mike Virnig - Cognis Corporation - USA; Hans Hein - Cognis Chile Ltd*

#### **GCC Reincarnated – SX Plant Relocation to the Whim Creek Copper Project**

*Peter Storey, Jodie Kimber and Harry Holle, – Straits Resources - Australia*

<p><b>The Advantages of an Automated Analytical Laboratory in a Copper Concentrator Plant – Case Study Proposal</b>  <i>P. K. Hofmeyr - IMP Automation (Pty) Ltd – South Africa</i></p>
<p style="text-align: center;"><b><i>Ferric Leaching of Sulphides</i></b></p>
<p><b>Hydromet at Sepon</b>  <i>S. Keokhounsy and T Moore and M. Liu – Sepon Copper Operations, Lang Xang Minerals Limited – Laos</i></p>
<p><b>Albion Process and Leaching High Arsenic Materials at Mount Isa</b>  <i>M. Hourn – Xstrata Technology; C.A MacDonald and P. Rohner – Core Resources Pty Ltd; P Woodal – Xstrata Copper Australia – Australia</i></p>
<p style="text-align: center;"><b><i>Pressure Oxidation</i></b></p>
<p><b>CESL process - Semi-Industrial operation at CVRD Sossego Plant</b>  <i>David Jones – CESL – Canada; Flávia Xavier, Luiz Renato Gonçalves Renato Costa and Vanessa Torres – CVRD – Brazil</i></p>
<p><b>Highland Valley Copper Mine: A Case Study For Onsite Refining</b>  <i>Frank Amon – HVC – Canada; Glen Barr, Jennifer Defreyn, and David Jones – CESL - Canada</i></p>
<p><b>Peculiarities Of Copper “Superconcentrate” Production Via Autoclave Treatment Of Smelted Cu-Ni Sulfide Products</b>  <i>A.V.Vydysh, M.N.Naftal, L.A.Bolshakov, A.F.Petrov and A.I.Yuriev - Norilsk Nickel Co. Polar Division, Mining-Metallurgical Research Centre - Russia</i></p>
<p><b>Increasing the Capacity of Existing and New Exothermic Autoclave Circuits</b>  <i>Grenvil Dunn - Hydromet (Pty) Ltd - South Africa</i></p>
<p><b>Computational Analysis and Commercial Demonstration of Improved Pressure Leach Vessel Agitator Design</b>  <i>Bernie Gigas – Lightning; John Wilmot - Phelps Dodge Mining Company - USA</i></p>
<p style="text-align: center;"><b><i>Chloride Leaching</i></b></p>
<p><b>Atmospheric Chloride Leaching of Concentrates Integrated With SX-EX</b>  <i>J. Leppinen, E. Ekman, M. Ruonala and E. Yllö – Outokumpu Technology - Finland</i></p>
<p><b>Chloride Leaching of Polymetallic Massive Ore</b>  <i>Bryn Harris, Carl White - Metallurgical Consultants – Canada; Bruce Ballantyne - Starfield Resources Inc., Canada</i></p>
