

CONTENTS

The Advantages Nickel Brings to Stainless Steels

Steve Barnett – Nickel Institute - UK

Treatment of Laterites

The Direct Nickel Process, Pathway To Commercialisation

Graham Brock & Fiona McCarthy – Direct Nickel Pty Ltd – Australia; Hans Woerner – Drinkard Metalox Inc., USA

Nickel Laterite Processing Technologies – Where To Next?

Jim Kyle – Parker Centre (Murdoch University) - Australia

The Mount Thirsty Process

D.G.I. Krebs, D. Furfaro & D.T. White – Independent Metallurgical Operations Pty Ltd - Australia

Superior Atmospheric Leaching of Various West Australian Laterites in the Presence of Sulphur Dioxide

Goutam K. Das, Andre de Lange, Jian Li & Dave J. Robinson – Parker Centre (CSIRO Minerals Down Under Flagship) - Australia

Heap & Bioleaching

Advances in Heap Leach Research and Development

S. Robertson, A. Seyedbagheri & P. van Staden – Mintek – South Africa; A Guzman - HydroGeosense Inc. - USA

Bacterial Leaching Kinetics For Copper Dissolution From A Low-Grade Indian Chalcopyrite Ore

Abhilash, K.D. Mehta & B.D. Pandey - National Metallurgical Laboratory (CSIR) - India

Comparative Study on the Nickel Bioleaching of Mine Wastes (Slag and Tailings)

A. Muñoz, D. Bevilaqua & O. Garcia Jr - São Paulo State University – Brazil

Process Design

Manganese Removal In Base Metal Hydrometallurgical Processes

Graham Fisher – Bateman Engineering Projects – South Africa

Nickeliferous Pyrrhotite – Another Source of Nickel if it Can be Extracted Economically

Mike Dry – Arithmetek Inc. & Bryn Harris – NMR360 Inc. - Canada

Review of GRP Design Codes and Manufacturing Practice

Naresh Balakrishnan – Consultant – Australia

Advanced pH Controller Helps Improve Nickel Leaching Efficiency and Quality

Andrew Brown – Motherwell Automation – Australia; Abdullah Kahn - Impala Platinum - South Africa; Johan Rademan & Alison Budge - CSense Systems - South Africa

Solvent Extraction

Turbulent Settling (TS) Technology for Solvent Extraction

Y. Kokotov, L. Braginsky, D. Shteinman & E. Slonim – Turbulent Technologies Ltd; V. Barfield & B. Grinbaum – Bateman Advanced Technologies Ltd – Israel/Australia

Application of WINTRAY Extraction Column to Nickel Hydrometallurgical Processing

Takashi Nakayama, Fumio Iwamoto, Masayuki Sato, Shinya Kumagai, Kenzo Sauda, Akitoshi Ito & Yasunori Nozoe - JGC Corporation - Japan

Methods of Managing Manganese Effects on Copper SX-EW Operations

Graeme Miller - Miller Metallurgical Services - Australia

Reagent Development: New Acorga Formulations with Enhanced Stability

Troy Bednarski, Matthew Soderstrom & Owen Tinkler – Cytec Industries – USA/South Africa

A Novel Synergistic Solvent Extraction System for Separating Copper from Iron in Strong Chloride Solutions and Transferring It Into Sulphate Solutions for Recovery

Chu Yong Cheng, Zhaowu Zhu & Wensheng Zhang - Parker Centre (CSIRO Minerals Down Under Flagship) - Australia

A New Process for Cobalt – Nickel Separation

David Jones & Tannice McCoy – CESL Limited – Canada; Chu Yong Cheng, Kieth Barnard & Wensheng Zhang - Parker Centre (CSIRO Minerals Down Under Flagship) - Australia

Solvent Extraction (Cont.)

Development of Process Modeling for Cyanex 272

Matthew Soderstrom, Cyril Bourget, Boban Jakovljevic & Troy Bednarski – Cytec Industries - USA

Towards Understanding the Chemistry in the LIX 63/Versatic 10 Synergistic Solvent Extraction System

K.R. Barnard, N.L. Turner, N. Tsuntsaeve & R. Halford - Parker Centre (CSIRO Minerals Down Under Flagship) - Australia

Ion Exchange

Update on the Application of MRT to Separations in the Copper and Cobalt Industries

Steven R. Izatt, Neil E. Izatt, Ronald L. Bruening and John B. Dale - IBC Advanced Technologies - USA

Selective Ammoniacal Elution of Nickel and Cobalt from Iminodiacetate Cation Ion Exchange Resin

Patrick Littlejohn & James Vaughan - University of Queensland - Australia

Recovering Nickel from Heap Leach Liquor and Industrial Waste Using PSI Ion Exchange Resins

David Briggs – Purity Systems Inc. - Australia

Continuous IX for Nickel Purification SepTor Technology - A South African Experience

Ben Wijnberg – Outotec Oyj - Netherlands

New Ion Exchange Technique for Removal of Copper and Nickel from Cobalt Electrolyte

Charles Marston & Matt Rodgers – Dow Water & Process Solutions - USA

Pressure Leaching Forum

Managing the Fabrication and Delivery of the World's Largest Autoclaves in a New Business Environment

Andrew Marchbank, Patrick Cheung, Brian Aird, Serge Jodoin & Robert Noble – SNC-Lavalin Inc. - Canada

Increasing Safety and Reliability of Autoclaves by a Simplified Risk Analysis Procedure of Mechanical Seals and Supply Systems

R. Krebs, D. Huber & J.C. Smith – EKATO - Germany

The Interaction of Engineering and Toxicology During Pressure Equipment Design for the Mining Industry

David S. Dolan – Fluor Australia Pty Ltd & John Frangos - Toxikos Pty Ltd - Australia

Combined Engineering for Pressure Vessels and Bricklining

Horst Feldheiser - DSB Säurebau GmbH & Gert Lau – Lau Engineering Solutions GmbH - Germany

Optimizing Oxygen Plant Performance, Improving Production and Reliability of Existing Plants While Reducing Costs

Bruce Dawson, Mohammed. Kalabassi, Scott Siegmund & Matthew Thayer – Air Products & Chemicals – USA/UK

Optimisation of Exothermic Pressure Leaching Systems

Frank Crundwell – CM Solutions – South Africa

Pressure Leaching Forum (Cont.)

The Recovery of Nickel, Cobalt from the NorthMet Deposit Using Bulk Flotation and Chloride Assisted Pressure Leaching

D. Dreisinger – Polymet Mining Corp. - Canada; R. Molnar & A. Mezei – SGS Lakefield Research – Canada; K. Baxter & M. Wardell-Johnson - Bateman Engineering Pty Ltd - Australia

Unlocking Disseminated Nickel Sulphide Deposits Using the CESL Nickel Process

David Jones, Keith Mayhew, Rob Mean & Mary Neef – CESL Limited - Canada

Design, Construction and Commissioning of the Sepon Copper POX II Circuit

Mike Bell – Ausenco Minerals & Metals; Mike Hoey & Mike Liu – Mineral & Metals Group - Australia

Additional Paper - Not Presented at the Conference

MMC Norilsk Nickel's Experience Of Using Surfactants in Electrolysis Process for Suppression of Hazardous Hydro-Aerosols

A.I. Ryabushkin – MMC Norilsk Nickel; A.I. Yuriev & E.V. Salimzhanova - Norilsk Division of GiproNickel Institute - Russia
