

# In-Situ Recovery Contents

	Page
<b>Keynote Address: <u>Developments in ISR Permeability Enhancement</u></b> <b>Laura Kuhar, CSIRO, Australia</b>	2
<u><b>Combining In Situ Recovery and Ion Exchange at the Kapunda Copper Project</b></u> <b>Jim Wall, Clean TeQ Water /EnviroCopper, Australia</b>	15
<b>Process Development</b>	30
<u><b>Gold Extraction from Tailings Using Modified ISR Technology</b></u> <b>Tim Graham, Atom Minerals, Australia</b>	
<u><b>Economic Assessment of ISR Projects</b></u> <b>Maxim Seredkin, CSA Global, Australia</b>	45
<u><b>Evaluation of In-Situ Barrier Technology for Risk Mitigation and Extraction Optimisation for In-Situ-Recovery Operations – A Review</b></u> <b>Godfrey Mawire, Curtin University/ CSIRO Mineral Resources, Australia</b>	55
<u><b>3d Reactive Transport Simulation Of Uranium In Situ Recovery. Large-Scale Wellfield Applications in Shu Saryssu Bassin, Tortkuduk Deposit (Kazakhstan)</b></u> <b>Antoine Collet, ORANO/ PSL University/ Mines ParisTech/ KATCO JV LLP, France/Kazakhstan</b>	70
<u><b>Simulation of In-situ Recovery of Copper at Kapunda Using COMSOL Multiphysics</b></u> <b>Leon Faulkner, University of Adelaide/EnviroCopper, Australia</b>	89
<u><b>Comparative Closure: Assessing The Biophysical Closure Challenges of Different Mining Methods</b></u> <b>Ewan Sellers, Mining 3, Australia</b>	119
<b>Permeability Enhancement Forum</b>	130
<u><b>Biomineral Alteration to Create Pathways in Ores to Release Targeted Elements</b></u> <b>James K Dirstein, Auric BioRecovery Systems/Total Depth, Australia/USA</b>	
<u><b>A Numerical Study of Ion/Fluid Flow in Chalcopyrite with Application to Electrokinetic in Situ Recovery</b></u> <b>Victor Blanca &amp; Kunning Tan, University of New South Wales/ Australian National University/Virginia Tech, Australia/USA</b>	137
<u><b>Mass Transfer Enhancement using Electrokinetic and Solution Pulsing Methods in In-Situ Recovery of Metals</b></u> <b>Elahe Karami &amp; Laura Kuhar, Murdoch University/CSIRIO Minerals /Curtin University, Australia</b>	154
<u><b>Experimental Hydraulic Fracturing Technique for Hard Rock In-Situ Recovery Enhancement</b></u> <b>Hongyi Sun, Curtin University/CSIRO, Australia</b>	164
