Keynote Address: <u>Chloride – A Precious Metals Leaching Medium Yet To Reach Its Potential</u> Mike Adams, Lifezone Limited, Isle of Man	1
<u>The Amira P420 Gold Processing Benchmark Surveys</u> Erica Avelar, Curtin University Western Australian School of Mines, Australia	15
<u>Stripping and Electrowinning Optimization in Gold and Silver Process</u> Göksel Sendur, Zenit Madencilik, Turkey	28
<u>Metso Outotec Flowbottom, First Reference Experiences And Look Back To Development</u> Tuosmas Hirsi, Metso Outotec, Finland	36
<u>Solving Scale Problem In Process Tanks With Swirl Flow Agitation</u> Bon Nguyen, CSIRO Mineral Resources, Australia	44
<u>Driving Stagewise Development Of Gold Projects With The Jameson Concentrator And Albion Process™</u> Laurie McDonnell, Glencore Technology, Australia	56
<u>Novel Corrosion-Resistant and Erosion-Resistant Coating Qualified for Use In Pressure Oxidation Severe Service</u> Evelyn Ng, Callidus Process Solutions, Australia	64
<u>Process Development for Hydrometallurgical Recovery of Base and Precious Metals from Waste Printed Circuit Boards</u> Huan Li, Curtin University Western Australian School of Mines, Australia	77
<u>Mintek's iGoli Process. History, Piloting and Techno Economics</u> Elmar Muller, Mintek, South Africa	86
<u>The Diversity of Recyn Technology</u> Malcolm Paterson, Greengold Advisory, Indonesia	107
<u>Alternative Gold Refining Procedure Using 'Organic Aqua Regia'</u> Akihiro Yoshimura, Chiba University, Japan	114
<u>Introducing the Third Force In Metallurgy</u> Melinda Moore, Viinca Technologies, Canada	122
<u>Update on Cyanide Free Leaching of Gold Ores Using Glycine Leaching Technology</u> Glen O'Malley & Elsayed Oraby, Mining and Process Solutions	127
<u>Update on Glycat Leaching of Gold Ores and Concentrates</u> Glen O'Malley, Mining and Process Solutions	139
